PROFILE

First-semester Informatics Engineering student at UIN Syarif Hidayatullah Jakarta with active experience in event organizing and student organizations. Possesses foundational skills in creative design and experience coordinating with teams in event execution. Eager to contribute directly in educational activities, highly adaptable, and committed to carrying out responsibilities with dedication. Passionate to continuously grow through real-world hands-on experience.

EXPERIENCE

Creative Designer - Kid'z Academy **Aug 2025 - Present**

- Manage the creative process from content planning to publication.
- Edit and produce video content for multiple digital platforms (Instagram and TikTok). Design visual materials such as posters, logos, and infographics.
- Edit and curate written content (captions, scripts) to align with brand voice.

Campus Ambassador - MySkill **Jan 2026 - Present**

- Created and managed social media content to promote MySkill programs on campus.
- Adjusted content to a student audience to ensure educational messages were delivered effectively.
- Contributed to increasing awareness of the MySkill platform among students at UIN Jakarta.

Educational Content Creator - @numerbyte (Tiktok) **Jun 2025 - Present**

- Produced educational TikTok content reaching 200,000+ views and 30,000+ engagements within one month.
- Managed the full creative process from concept development, scripting, to content publication.

Staff Visual Creative Design - Math Competition MOCHA 6.0 **Sept 2024**

- Coordinated the creation of visual design materials such as posters, name cards, certificates, and other event assets.
- Designed visual materials that aligned with the event's concept and branding.
- Decorated the event venue consistently according to the chosen theme.
